Dear Rebeca Gomez Betancourt,

I am writing to you as being the assistant of Dr. Çınla AKDERE, who is the contact person for Turkey within the EE-T Project.

Having the objective to assess the impact of translations of economic texts on the History of Economic Thought in Europe, "Economic e-Translations into and from European Languages (EE-T) Project" aims to promote a digital interactive educational tool. Predicted to be completed by October 2013, the EE-T Project will accomplish its aim by creating a comprehensive web portal. (<http://eet.pixel-online.org/>)

The EE-T Project requires from each partner to create 5 links to the project portal <http://eet.pixel-online.org/>. In this respect, we would like to ask if you could create a link to the EE-T Project portal from your internet address <http://www.rebecagomezbetancourt.com/?>

Please do not hesitate to contact in need of any information.

Best Regards,

Pelin Bulgurluođlu
